Plus, we help you or your business properly install and use Microsoft Office, including Outlook, Word and Excel to Teams and OneDrive, which enhances your investment in all those computers and software. We can also make sure your backups are set up correctly and provide solutions to problems that have been frustrating you for years! Trust Moonlight 365 to empower you to get more from your computer investment. **Get started today and experience the difference Moonlight 365 can make for your business!**
- **If it is support you need, it is support you will receive.** Our customers are dedicated professionals who excel in their respective fields. They often rely on computers to organize, track, and store vital information. At Moonlight 365, we empower our customers to achieve their goals by providing tailored solutions that meet their specific needs. We never push them into anything they aren't interested in, but we always offer the expert advice they depend on. Trust us to help you do exactly what you want, with the guidance you need to succeed. We listen first, then we assist. It's the fastest way to provide proper support.

Windows and Mac Support

Nearly everyone owns a computer, but with varying levels of computer knowledge. Whether they call you the Computer Guru or not Computer Savvy, we can usually help you.

Technology Experts: What most folks want is a Tech "Generalist" who can assist on a wide range of computer related issues. We have been doing this for years!

Do want help with any of these of computer issues?

- **Backup Confidence** – Ensure your files are protected
- **File Sharing** – Collaborate on documents with others
- **OneDrive** – Store, sync, & share effortlessly
- **Lost & Found** – Track down those missing files
- **Email Troubles** – Fix sending/receiving issues for good
- **Office Apps** – Master Word, Excel & PowerPoint
- **Teams Setup** – Camera, audio, and meeting magic
- **Upgrade Devices** – New computer? We can do it right!
- **Data Migration** – Move everything to a new device
- **Personal Training** – Learn how to do what you need
- **Microsoft 365 Decoded** – Understand all those apps

Great Listeners: Don't stress about finding the perfect words. Just show us what's happening - we're experts at understanding tech issues, even when they're hard to describe. Our job is to listen first, then solve.

Have you had these feelings when getting support?

The Tech Wasn't Very Nice

We know how frustrating it can be when tech help feels impersonal or rushed. That's why our team prioritizes patience, clear communication, and finding solutions—because great support starts with respect.

You feel you should be able to do this thing

Ever felt like your computer *should* be able to do something—if only you knew how? Our technicians don't just fix problems—they listen, explain, and reveal those 'aha!' shortcuts that save you time and frustration. Because good tech support isn't about knowing everything; it's about helping you discover what's possible.

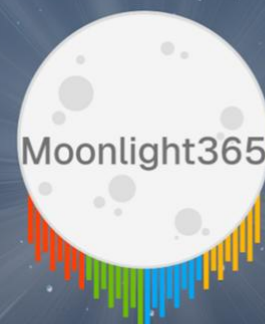

The Tech wasn't helpful, and that was expensive

We believe in fair and honest service—that's why we only charge for the time we spend actively solving your problem. If we encounter an issue outside our scope, we'll do everything we can to point you in the right direction, often at no cost to you. No dead ends, no runaround—just straight talk and solutions that make sense for you or your business.

Moonlight 365 Technologies, Inc. was founded to restore trust in technology support. We stand apart from other tech support organizations because we operate out of a genuine sense of empathy for our customers when they require our services.

For too long, support has been more about telling the customer what they need to do and not listening to the needs of the caller who has the tech support issue.

By focusing exclusively on each call, each customer, each support situation, Moonlight 365 Technologies builds long term relationships with people and organizations. We do it one deal at a time, one handshake at a time.

Support Services for Individuals, Professionals & Small Business

Microsoft Windows Computer Support

At Moonlight 365, we offer comprehensive support for both individual and group system setups. Whether you're building out new computers or wiping old ones for reuse or secure disposal, we've got you covered. Our services also include performance optimization, purchase recommendations, security patching, and anti-virus management. Additionally, we provide expert assistance with software installation and troubleshooting, data backup implementation, and configuring security and access settings through Microsoft 365. Trust Moonlight 365 to keep your systems running smoothly and securely.

Apple Support for Mac Users

While Mac users often need less extensive hardware and software support, Moonlight 365 is here to provide top-notch services tailored to their needs. We offer secure backup solutions for your Mac computers, ensure seamless integration of Microsoft Office applications, and provide comprehensive training on using your Mac efficiently. Trust Moonlight 365 to enhance your Mac experience with expert support and personalized service.

Website Design and Deployment

Modern web design is more intricate than many realize, especially for small businesses and individuals who need websites but are mindful of their budgets. At Moonlight 365, we understand that you want a website that works seamlessly across all devices without the hefty price tag or the cumbersome design consulting process. That's why we offer streamlined website building services, delivering simple, clean, and elegant websites at a fraction of the cost of full-service providers. Our websites not only look great but are also more secure and effective than DIY solutions. Let Moonlight 365 create a professional online presence for you, effortlessly and affordably.

Microsoft 365

We are Microsoft 365 experts dedicated to supporting you in achieving your personal or small business goals. Microsoft 365 encompasses various components, each requiring proper setup and implementation. We provide comprehensive support for OneDrive, Exchange, Teams, and Microsoft Office (Outlook, Word, Excel, PowerPoint). But our expertise doesn't stop there. We are also proficient in SharePoint, Power Platform development, and CoPilot/AI integration. Whether you need assistance with large-scale projects or simply want to get trained on using Microsoft products, Moonlight 365 is here to help you succeed.

Training Support

We offer comprehensive training for both teams and individuals looking to master Microsoft applications. Our expert trainers are often the first point of contact for any issues you may encounter, providing empathetic and knowledgeable assistance. Teaching you how to use Teams, Outlook, Word, or your Windows machine is part of our DNA. From small applications to large-scale implementations, our trainers are dedicated to helping you or your organization navigate the Microsoft ecosystem with ease and confidence.
